

New Beacon Updates

April 2022

Mobile App v4.5

Available for download on the App and Google Play Stores

- Background location tracking when app is running in the background
- Night shift dark screen mode
- Telephone numbers included in incident description automatically hyperlinked for calling from the app
- Mobile dispatchers can now initiate new incident creation by long pressing a location on the map
- Improved performance enhancements and bug fixes

Web App v6.0

Please clear your browser cookies and cache

- Redesigned user interface aesthetic
- Bulk responder template download now comes pre-populated with existing responders
- Responders can now be pre-assigned to Scheduled and Queued incidents after they have been created
- Photo attachments for map markers and transport destinations

Web App v6.0

New Beacon Updates

The screenshot displays the BEACON Web App v6.0 interface. The main map shows Seattle with various incident markers. The right sidebar contains several sections:

- Incidents:** Includes a 'Create New Incident' button and a message: 'Currently there are no active incidents. View completed incidents here'.
- Responders:** Lists responders such as 'Recovery, Service 1', 'responder, tester', 'Squad 42', and 'Voluntario, Victor'.
- Notifications:** A list of recent updates, including incident numbers, timestamps, and responder status.

Red arrows point from the desktop notification icon in the top right to the 'Notifications' section in the sidebar. Another red arrow points from the 'Create New Incident' button to the 'Incidents' section in the sidebar.

1. Desktop notifications are now pinned to the right side of the dashboard

2. These features have moved to expandable fields on the left side of the dashboard

- Create new incident
- Active incidents
- Active responders

Active Incidents Tab

The screenshot shows the 'Active Incidents Tab' interface. On the left is a sidebar with 'Create Incident', 'Active Incidents' (highlighted with a red '4'), and 'Responders'. The main area has a dark header with 'Incidents' and 'View Completed Incidents'. Below the header is a 'Filter By Priority Type' section with 'Immediate' (red), 'Queued' (orange), and 'Scheduled' (blue) buttons. A list of incidents follows. The first incident (ID 349) is highlighted with a red circle and a callout '2'. It has a status of 'EMERGENCIA | Trauma | Dolor de Espalda' with '1 Assigned' and '0 Completed'. Below this is a summary card for incident 356, which includes a location pin for '1027 Gilmore Ave, Lakeland, FL 33805' (callout '4'), a timestamp '2022/04/25 15:49:41', creator 'J-Stage Dispatcher', caller 'Jane', and description 'Welfare check; 75-year old female; family has not had any contact with individual for 3 days'. It also shows a caller number '648293792309' and tags 'EMERGENCIA | Otros | Prueba de Sistemas'. Below the summary is a 'Responders' section (callout '5') showing 'DIAZ, J. (ppt)' with status '356' and '355'. At the bottom, there are buttons for '+ Responders' (callout '6') and 'x Close Incident' (callout '7'). A clock icon at the bottom right (callout '8') is used for scheduling.

- 1 Filter** — Select the Incident Priority Type buttons to filter which ones are displayed
- 2 Incident Number** — Click the Incident Number to open the Incident Details page and view the full details
- 3 Incident Summary Card Display** — Click the carat to see the Incident Summary Card
- 4 Incident Location** — Click the address to center the map on the Incident Location
- 5 Assigned Responders** — Shows the Responders currently assigned to this particular incident
- 6 Add Responders** — Click the Add Responders button to assign additional Responders to the current incident
- 7 Close Incident** — Click the Close Incident button to close the incident and end the participation of all Assigned Responders
- 8 Scheduled Clock** — Click the Clock Icon to see what date and time the Incident has been scheduled for

THE SAME FUNCTIONALITY WITH A NEW LOOK

Responders Tab

<

- 1 Responder Icon** — Colors reflect the state and/or type of incident the Responder is assigned to:
 - Green = Available; not assigned to any incident
 - Red = Assigned to an Immediate Incident
 - Yellow = Assigned to a Queued Incident
 - Blue = Assigned to a Scheduled Incident
- 2 Incident Number** — The first Incident Number shown is the one that the Responder is currently assigned to; subsequent Incident Numbers show subsequent incidents that the Responder is pre-assigned to (e.g., Scheduled Incidents in the future)
- 3 Tag Icon** — Hover over the Tag Icon to see which tags the Responders has been given
- 4 Phone Icon** — Click the Phone Icon to call the Responder using voice calling applications (e.g., Skype)
- 5 Chat Icon** — Click the Chat Icon to display a private chat window with the Responder
- 6 Cancel Icon** — Click the Cancel Icon to cancel the Responder from the incident they are currently assigned to
- 7 Display Icon** — Click the Display Icon to reveal more information about the Responder
